KS2 Acceptable Use Policy

Staying safe whilst using technology

Kobi Nazrul
- PRIMARY SCHOOL -

To keep me safe when using technology I will:

	Only use the internet when I have permission, and use it for a specific purpose.
	Think carefully about the keywords I use when searching the internet.
	Keep personal details such as my full name, school and address to myself when online.
	Keep my password safe, and only use my own account.
	Never arrange to meet someone I have met online.
	Always check that my writing is polite before I send it.
	Never reply to a message that is unkind. I will save it and show an adult straight away.
	Remember that not everything that I read on the internet is true.
	Always tell an adult if something on the internet makes me or my friends unhappy.
